## Simple Page Kit #6 HACKED

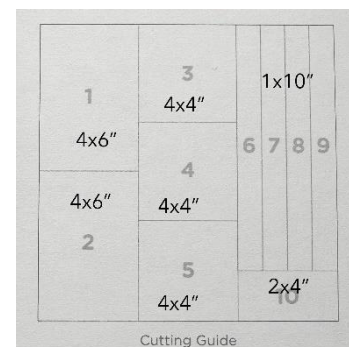

Blog Post

Tools & Supplies: 12" Decorative Trimmer, 12" Trimmer, 2 Base Papers, 2 Double-Sided Prints, 1 Sheet of Coordinating Paper, Embellishments

Most of the cut guide is photo mats, but you do want to cut four 1" x 10" strips of paper. I recommend cutting mats to size as desired for your photos.

To hack the base papers, choose two base papers and two double-sided printed papers

1. Cut one of the printed papers down to 10" x 12", then cut in half at 5" with the 12" Decorative Trimmer (your choice of swell or wavy) to create two 5" x 12" pieces.
2. From the other double-sided print, cut down to 10" x 12", then cut in half to create two 6" x 10" rectangles.
3. Adhere the 10" x 6" rectangle 1" down from the top of the base paper, centered 1" from each edge. Layer and adhere the swell/wavy piece 1" from the bottom of the base paper.
4. Adhere the 1" x 10" strips at the top and bottom of each page as shown.

\*\*\*I pulled up the swell piece higher on the right page so I could fit four photos below it. I added the 2" x 12" strip cut in Step 2 to fill the space. I used ABC Monograms for the title, and added a strip along the top seam as accent.
