Adaption notes: Adjust the cuts above to accommodate your chosen photo sizes, i.e. cut #1 & #2 to 4-1/2" wide to use with 4" photos.

Build Layout:

- 1- If desired, punch each 6"x12" strip with an edge-style punch or select a different border element to overlay.
- 2- Adhere each strip 1/2" from outside edge of base paper.
- 3- Add optional border element.
- 4- Adhere 4"x10" strips horizontally along the bottom.
- 5- Place 4"x6" photo mats as shown.

Adjust sizes of all the mats as needed to accommodate your photo sizes.

Design Tip: Use Peekaboo Pockets to add more photos.

Peekaboo pockets look best if they are layered on a 4-1/2"x6-1/2" mat. For a double mat look, trim photos to fit on a 4"x6" mat to slide into the pocket.
